

U.S. Citizenship and Immigration Services

USCIS Response to COVID-19

On March 18, U.S. Citizenship and Immigration Services temporarily suspended routine in-person services to help slow the spread of coronavirus (COVID-19). USCIS plans to begin reopening our offices on or after June 4, unless the public closures are extended further. USCIS staff are continuing to perform duties that do not involve face-to-face contact with the public. However, USCIS will provide emergency services for limited situations. To schedule an emergency appointment, contact the [USCIS Contact Center](#).

During this time, individuals may still submit applications and petitions to USCIS. [Online filing](#) remains the most convenient and interactive way to submit forms, check the status of your case, and receive notices.

USCIS will provide further updates to this page as the situation develops and will continue to follow CDC guidance.
